Some of the special features of the fund are (1) that widowed daughters incapable of re-marriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 23rd July 1936.

Forecast of the Summer Til (Sesamum) Crop of Bengal, 1936-37.

(*Note.*—On an average of the five years ending 1933-34, the area under *til* in Bengal has represented some 2·4 per cent. of the total area under *til* in British India.)

Character of the season.—At the outset defective rainfall interfered with progress of sowings in parts of West and North Bengal. Elsewhere the operation was carried on under favourable conditions. Subsequent conditions were generally satisfactory for germination and growth. Some damage was, however, caused by heavy rain in Jessore, Khulna, Pabna, Dacca and Bakarganj.

Acreage.—The area sown this year is estimated at 131,800 acres as against 115,200 acres last year.

Outturn.—From the District Officers' estimates the average outturn of the crop for the province works out at 81 per cent. of the normal this year as against the same estimate last year.

Taking the normal yield as 7⅘th maunds per acre, the gross outturn of the crop for the province is estimated at about 29,000 tons this year as against 25,400 tons last year.

K. McLEAN,

Director of Agriculture, Bengal.

Damodar Canal Project.

(*a*) *Description of the work.*

General.—The Damodar Canal Project was designed and constructed to irrigate an area of 180,000 acres on the left bank of the Damodar river in the district of Burdwan. A measure of control of the water levels has been obtained by the construction of a weir with undersluices and a head regulator at Rondia

some 30 miles west of the town of Burdwan. The water so controlled flows through a canal system and is passed on to the land through permanent outlets to irrigate the crops by flowing from field to field.

The total length of canals on the system is 232 miles 1,160 feet.

Headworks.—The headworks are situated at Roudia and consist of a weir wall with three river sluices (usually called undersluices) and a head regulator with the usual abutments, guide banks and flood bunds.

The weir is 3,750 feet long and is designed to raise the ordinary low water levels by 9½ feet. The three undersluices are each 60 feet wide and are situated on the left bank of the river in continuation of the weir wall and their purpose is to ensure that the main thread of the current shall pass close to the canal offtake.

Control is obtained by Stoney's sluice-gates 60 feet wide and 8½ feet high. The gates are counterbalanced and operated by hand winches.

The head regulator is a sluice with five vents 20′ × 4½′ each in size and are designed to pass 2,000 cusecs of the river water into the canal system.

The controlling gates are of a type known as the "rising cill" which means that when the sluice is fully open, the gates have to be dropped behind a breast wall. This ensures that the supply of water passing into the canal will be free from sand, the sand passes along the floor of the undersluices and is retained in the river bed.

The canal system.—The canal system consists of—

(*a*) A main canal with distributaries.

(*b*) A branch canal with distributaries.

(*c*) A large distributary (No. 6) with minors.

(*a*) *The main canal* is 26 miles 774 feet in length, for its first 13 miles it flows in a north-easterly direction and at that point it crosses the Grand Trunk Road (in its 89th mile). This canal then flows in an easterly direction parallel to and to the north of the Grand Trunk Road for a further 12 miles, where it turns to the south to cross the Grand Trunk Road in the 75th mile to flow into the Eden Canal in Issofabad mauza. There are three important cross drainage works, viz., the Kookooee syphon (5th mile), the Banka syphon (8th mile) and the Kandar syphon (13th mile). These are designed to pass the waters of the Kookooee, Banka and Kandar rivers under the canal.

Falls have been provided in the 15th, 16th, 17th, 20th, 21st, 24th, 26th and 27th miles.

AT THE COURT AT BUCKINGHAM PALACE.

The 3rd day of July, 1936.

PRESENT :

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by section three hundred and twenty of the Government of India Act, 1935 (hereafter in this Order referred to as "the new Act"), it is provided that the provisions of that Act other than those of Part II thereof shall, subject to any express provision to the contrary, come into force on a date to be appointed by His Majesty in Council for the commencement of Part III thereof, but His Majesty in Council is empowered to fix an earlier or later date for the coming into operation, either generally or for particular purposes, of any particular provisions of the Act :

AND WHEREAS by section three hundred and ten of the new Act His Majesty in Council is empowered, for the purpose of facilitating the transition to the provisions of the new Act from the provisions of the Government of India Act (hereafter in this Order referred to as "the old Act"), to direct that the new Act and any provisions of the old Act still in force shall, during a limited period, have effect subject to adaptations and modifications, to make with respect to a limited period temporary provision for ensuring that during and after the transition there are available to all Governments in India sufficient revenues to enable the business of those Governments to be carried on, and to make other temporary provisions for the purposes of removing any difficulties arising in relation to the transition :

AND WHEREAS a draft of this Order was laid before Parliament in accordance with the provisions of sub-section (1) of section three hundred and nine of the new Act and an Address has been presented to His Majesty by both Houses of Parliament praying that an Order may be made in the terms of this Order :

NOW, THEREFORE, His Majesty, in the exercise of the said powers and of all other powers enabling him in that behalf, is pleased, by and with the advice of His Privy Council, to order, and it is hereby ordered, as follows :—

1. This Order may be cited as "The Government of India (Commencement and Transitory Provisions) Order, 1936."

2. The Interpretation Act, 1889, applies for the interpretation of this Order as it applies for the interpretation of an Act of Parliament.

3.—(1) The provisions of the new Act, other than those of Part II thereof and other than those referred to in the next succeeding sub-paragraph, shall, subject to the provisions of that Act and of this and any other Order in Council made thereunder, come into force on the first day of April, nineteen hundred and thirty-seven, and accordingly that date is the date referred to in that Act as the date of the commencement of Part III thereof.

(2) The provisions of Part VIII of the new Act, of Chapter I of Part IX of that Act, and of the Eighth Schedule to that Act, shall come into force on such dates as His Majesty in Council may hereafter appoint, and section two hundred and thirty-two of that Act shall not come into force until the establishment of the Federation.

(3) In this paragraph the reference to Part II of the new Act shall be deemed to include a reference to the First and Second Schedules thereto, and to so much of the Third Schedule thereto as relates to the Governor-General.

4.—(1) So far as may be necessary for the purpose of enabling the members of all the Provincial Legislatures to be duly chosen in time for those Legislatures to be ready to meet by the commencement of Part III of the new Act—

(*a*) the provisions of Parts III and XII of, and of the Fifth and Sixth Schedules to, the new Act shall (so far as those provisions are not already in force) come into force on the date of the making of this Order ; and

(*b*) any Orders in Council or rules made under the new Act with respect to those Legislatures, whether before or after the making of this Order, shall come, or, as the case may be, be deemed to have come, into operation at the date of the making of the Orders or rules in question, and shall authorise or, as the case may be, be deemed to have authorised the giving of any notice or direction and the taking of any other step, given or taken in anticipation of the making or coming into force of the Orders or rules in question.

(2) References in sub-section (2) of section sixty-eight of the new Act to the Federal Legislature shall during the period before the commencement of Part III of that Act (as well as during the period in which Part XIII of that Act is in force) be construed as references to the Indian Legislature.

(3) For the avoidance of doubt it is hereby declared that a person who has been chosen to be a member of the Legislative Assembly of Bengal or of the Legislative Assembly of Bihar may, before the commencement of Part III of the new Act, take part in an election to choose members of the Legislative Council of the Province notwithstanding that he has not taken his seat or taken the oath prescribed by section sixty-seven of the new Act.

5.—(1) The Governor of each Province may in his discretion from time to time authorise such expenditure from the revenues of the Province as he deems necessary to enable the business of the Provincial Government to be carried on between the commencement of Part III of the new Act and the date on which a schedule of authorised expenditure is authenticated in accordance with the provisions of section eighty of the new Act, or until the expiration of six months from the commencement of Part III of the new Act, whichever first occurs :

Provided that, except with the consent of the Governor-General in his discretion, the expenditure so authorised shall not exceed one-half of the total expenditure from the revenues of the Province in the previous financial year as shown in the revised estimates for that year.

(2) The expenditure authorised under the preceding sub-paragraph shall be included under the appropriate heads in the first estimates of expenditure laid before the Provincial Legislature under section seventy-eight of the new Act, and the provisions of that section and of sections seventy-nine and eighty of that Act shall apply in relation thereto :

Provided that any expenditure so authorised shall, so far as regards moneys paid and liabilities incurred before the date on which a schedule of authorised expenditure is authenticated in accordance with the provisions of the said section eighty, be deemed for all purposes of the new Act to have been duly authorised notwithstanding that it may not be included in the Schedule so authenticated.

(3) The following provisions of this sub-paragraph shall apply in relation to any expenditure incurred from the revenues of a Province in respect of a period before the commencement of Part III of the new Act in excess of the expenditure authorised in respect of that period under the relevant provisions of the old Act—

(*a*) the Governor of the Province may, in his discretion, at any time before the expiration of six months from the commencement of Part III of the new Act declare any such expenditure to have been duly authorised ; and

(*b*) in so far as no such declaration has been made, the provisions of section eighty-one of the new Act (which relates to supplementary statements of expenditure) shall apply in relation to any such expenditure as they apply in relation to expenditure in respect of financial years after the commencement of the said Part III.

6. The Governor of each Province in his discretion may by public notification continue for a period not exceeding twelve months from the commencement of Part III of the new Act any taxation which was being levied for the purposes of the Province and would otherwise expire, without prejudice, however, to the powers of the Provincial Legislature as to the imposition and remission of taxation.

7. Before the first general elections are held to choose the members of the Legislative Assembly of any Province, the Governor shall prorogue the existing Legislative Council, if any, of that Province until the first day of April nineteen hundred and thirty-seven, and on the commencement of Part III of the new Act the Council shall automatically be dissolved.

The reference in this paragraph to elections held to choose members of a Legislative Assembly does not include a reference to primary elections held to choose candidates for seats in that Assembly.

8. On the commencement of Part III of the new Act, the members of the Council of State and the Legislative Assembly of the Indian Legislature who have been elected or nominated to represent Burma or Burma constituencies shall vacate their seats.

9.—(1) Acts of the Indian Legislature made before the commencement of Part III of the new Act (including Acts made under section sixty-seven B of the old Act) may, notwithstanding the repeal of the old Act and notwithstanding anything in section two hundred and ninety-two of the new Act, be validly made so as first to come into force at, or at any time after, the commencement of Part III of the new Act, but any Act which is valid only by virtue of this paragraph shall, except as respects things done or omitted to be done before its expiration cease to have effect on the expiration of twelve months from the commencement of Part III of the new Act :

Provided that—

(*a*) any such Act may be continued, repealed or amended by any Legislature or authority having for the time being power to legislate in relation to the subject-matter of the Act :

(*b*) any such Act shall have effect as part of the law of British India, but not as part of the law of Burma ;

(*c*) if and in so far as any such Act is inconsistent with the new Act, or any Order in Council made thereunder (whether made before or after the Act of the Indian Legislature) the new Act, or the Order in Council, as the case may be, shall prevail.

(2) This paragraph shall apply in relation to regulations and ordinances made under sections seventy-one and seventy-two of the old Act as it applies in relation to Acts of the Indian Legislature.

10. Where any functions of a Local Government under any existing Indian law are transferred by or under the new Act to the Federal Government, the Provincial Government shall, nevertheless, continue, to perform those functions for such period, if any, not exceeding one year from the commencement of Part III of the new Act, as the Governor-General may fix, and shall, in the exercise thereof, be subject to the like control by the Governor-General in Council as immediately before the commencement of the said Part III.

11. Section sixteen of the new Act (which authorises the appointment of an Advocate-General for the Federation) and so much of sub-section (3) of section thirty-three thereof as declares his salary and allowances to be charged on the revenues of the Federation shall come into force on the commencement of Part III of the new Act.

12. So much of section three hundred and twenty-one of, and of the Tenth Schedule to, the new Act as repeals sub-section (2) of section sixty-seven of the old Act down to the words " the revenues of India " shall not take effect until the establishment of the Federation.

13.—(1) The provisions of this paragraph shall have effect with respect to the period before the commencement of Part III of the new Act.

(2) The accounts for the said period which, but for the commencement of the said Part III would have been audited in India, shall be audited under Part VII of the new Act as if they were accounts of the Governor-General in Council, but the Auditor-General of India shall transmit to the Secretary of State such information as is necessary to enable him properly to perform the duties mentioned in the subsequent provisions of this paragraph.

(3) The accounts for the said period which, but for the commencement of Part III of the new Act, would have been audited in England by the auditor of the accounts of the Secretary of State in Council shall be audited by the Auditor of Indian Home Accounts, who shall have the like powers and perform the same duties in relation thereto as the auditor of the account of the Secretary of State in Council would have had if the new Act had not been passed, except that anything to be done by or to the Secretary of State in Council shall be done by or to the Secretary of State ; and sub-section (3) of section twenty-seven of the old Act and paragraph nine of the Order in Council of nineteen hundred and twenty relating to the duties of the High Commissioner shall apply accordingly.

Sub-sections (4) and (5) of section one hundred and seventy of the new Act shall not apply in relation to the functions of the Auditor of Indian Home Accounts under this paragraph.

(4) The Secretary of State shall, notwithstanding the repeal of sub-sections (1) and (2) of section twenty-six of the old Act, lay before both Houses of Parliament of the same accounts and estimates as the Secretary of State in Council would under those sub-sections have been required so to lay.

14.—(1) Anything which under the provisions of the new Act or of any Order or rules made thereunder, is required or authorised to be done by, to or before the Governor of a Province (whether or not the Governor is to act in his discretion or to exercise his individual judgment) shall, before the commencement of Part III of the new Act, be done by, to or before the Governor in Council or, in the case of Sind or Orissa, the Governor.

(2) The provisions of section two hundred and sixty-one of the new Act, which require the Secretary of State not to exercise certain powers except with the concurrence of his advisers, shall, in relation to any prospective exercise of those powers before the commencement of Part III of the new Act, be deemed to be satisfied if he exercises those powers with the concurrence of the majority of votes at a meeting of the Council of India.

* 15.—(1) For a period of twelve months from the date of the commencement of Part III of the new Act a person who immediately before the said date was holding an office under the Crown in India shall not be disqualified from continuing to hold that office by reason of the fact that he is not a British subject and that no declaration entitling him to hold the office has been made under section two hundred and sixty-two of the new Act.

(2) Until other provision is made under the new Act, the conditions of service applicable to any person or any class of persons appointed or to be appointed to serve His Majesty in a civil capacity in India shall be the same as were applicable to that person or, as the case may be, to persons of that class immediately before the commencement of Part III of the new Act.

16. The provisions of this Order shall be in addition to, and not in derogation of, the provisions of section thirty-seven of the Interpretation Act, 1889.

(*a*) that in fact the petitioner received a majority of the valid votes ; or

(*b*) that but for votes obtained for the returned candidate by corrupt practices, the petitioner would have obtained a majority of the valid votes.

4.—(1) Unless the Governor, exercising his individual judgment, dismisses a petition for non-compliance with the prescribed requirements, he shall, exercising his individual judgment, appoint as Commissioners for the trial of the petition three persons who are or have been, or are eligible to be appointed, judges of a High Court, and shall appoint one of them to be the President :

Provided that nothing in this sub-paragraph shall be deemed to prevent the appointment of the President of a Commission before the other Commissioners are appointed.

(2) Subject to the provisions of this paragraph, all applications and proceedings in connection with the petition shall be dealt with by, and carried on by or before, the Commissioners.

(3) Where in respect of an election in a constituency more petitions than one are presented, the Governor shall refer all those petitions to the same Commissioners, who may at their discretion inquire into the petitions either separately or in one or more groups, as they think fit.

(4) If the services of any Commissioner are not available for the purposes of the inquiry or if during the course of the inquiry any Commissioner is unable to continue to attend thereat, the Governor, exercising his individual judgment, shall appoint another Commissioner and the inquiry shall recommence before the Commission as so reconstituted :

Provided that the Commissioners may direct that any evidence already recorded shall remain upon record, and in that case it shall not be necessary to re-examine those witnesses who have already been examined and discharged.

(5) References to the Commissioners in this Part of this Order shall, as respects any matter to be done before the commencement of the inquiry, be deemed to be references to the President.

5. When at an inquiry into an election petition the Commissioners so order, the Advocate-General of the Province, or some person acting under his instructions, shall attend and shall take such part therein as the Commissioners may direct.

6. Subject to the provisions of this Part of this Order, Acts of the Provincial Legislature and Rules may regulate the form of election petitions, the time and manner in which they are to be presented, the persons who are to be made parties thereto, the procedure to be adopted in connection therewith and the circumstances in which petitions are to abate, or may

be withdrawn, and in which new petitioners may be substituted, may require security to be given for costs and may authorise the Governor, exercising his individual judgment, to dismiss petitions for non-compliance with the prescribed requirements.

7.—(1) Subject to the provisions of this paragraph, if in the opinion of the Commissioners—

(*a*) the election of a returned candidate has been procured or induced, or the result of the election has been materially affected, by any corrupt practice; or

(*b*) any corrupt practice specified in Part I of the First Schedule to this Order has been committed in the interest of a returned candidate; or

(*c*) the result of the election has been materially affected by the improper acceptance or rejection of any nomination, or by reason of the fact that any person nominated was not qualified or was disqualified for election, or by the improper reception or refusal of a vote, or by the reception of any vote which is void, or by any non-compliance with the provisions of the Act or of this Order, or of any Act of the Provincial Legislature or Rules relating to the election, or by any mistake in the use of any prescribed form; or

(*d*) the election has not been a free election by reason of the large number of cases in which bribery or undue influence has been exercised or committed,

the election of the returned candidate shall be void.

(2) If the Commissioners report that a returned candidate has been guilty by an agent, other than his election agent, of any corrupt practice specified in Part I of the First Schedule to this Order, but further report that the candidate has satisfied them that—

(*a*) no corrupt practice was committed at the election by the candidate or his election agent, and the corrupt practices mentioned in the report were committed contrary to the orders, and without the sanction or connivance, of the candidate or his election agent;

(*b*) the candidate and his election agent took all reasonable means for preventing the commission of corrupt practices at the election;

(*c*) the corrupt practices mentioned in the report were of a trivial and limited character or took the form of customary hospitality which did not affect the result of the election; and

(*d*) in all other respects the election was free from any corrupt practice on the part of the candidate or any of his agents,

then the Commissioners may find that the election of the candidate is not void.

(3) If a person (not being entitled so to do) votes more than once at the same election, all his votes shall be deemed for the purposes of this paragraph to be void.

8.—(1) At the conclusion of the inquiry the Commissioners shall report whether the returned candidate, or any person who has lodged a petition and claimed a seat, has been duly elected and in so reporting shall have regard to the provisions of the last preceding paragraph.

(2) The report shall further include a recommendation by the Commissioners as to the total amount of costs which are payable and the persons by and to whom the cost should be paid, and any such recommendation may include a recommendation for the payment of costs to the Advocate-General of the Province or a person acting under his instructions attending the trial in pursuance of an order of the Commissioners.

(3) The report shall be signed by all the Commissioners and the Commissioners shall forthwith forward their report to the Governor, who on receipt thereof shall issue orders in accordance with the report and publish the report in the Government Gazette of the Province, and the orders of the Governor shall be final.

9. If either in their report or upon any other matter there is a difference of opinion among the Commissioners, the opinion of the majority shall prevail and their report shall be expressed in terms of the views of the majority.

18. Where any charge is made in an election petition of any corrupt practice, the Commissioners shall record in their report—

(*a*) a finding whether a corrupt practice has or has not been proved to have been committed by any candidate or his agent, or with the connivance of any candidate or his agent, and the nature of that corrupt practice ; and

(*b*) the names of all persons, if any, who have been proved at the inquiry to have been guilty of any corrupt practice and the nature of that practice with any such recommendations as the Commissioners may think proper to make for the exemption of any persons from any disqualifications which they may have incurred in this connection under paragraphs two to five of Part IV of this Order :

Provided that no person shall be so named in the report unless he has been given a reasonable opportunity of showing cause why his name should not be so recorded.

7. Any person who is for the time being disqualified under the foregoing provisions of this Part of this Order for being a member of a Provincial Legislature, or for voting at elections, shall, so long as the disqualification exists, also be disqualified for being an election agent at any election.

In the case of a candidate coming from outside India, the application and fee should be submitted through the educational authorities of the district or province from which he migrates.

(*i*) Each application should be supported by a declaration countersigned either by an Inspector of Schools or a Fellow of a University or a Principal of an affiliated college or a gazetted officer to the effect that he has fulfilled the following conditions :—

(*b*) If he has read in a school recognised by any other University or Board he must have previously read in a class which would make him eligible for admission to the Matriculation Examination of that University or Board in the year in which he intends to appear at the Matriculation Examination of this University.

(*ii*) He should also produce a migration certificate from the Divisional Inspector of Schools of the province from which he migrates or a transfer certificate from the school in which he read last, countersigned by the Divisional Inspector of Schools, who will be deemed to be an officer appointed by the University for the purpose.

Smoke abatement as others see it.

Immense Mischief.

The more outrageous manifestations of the smoke evil, common in our larger towns 30 or 40 years ago, have been much abated. But the advance made ought not to blind us to the immense mischief still done in subtler and more cautious forms by the smoke nuisance. The Smoke Abatement Society, which meets once again at Bristol to-day, is doing very useful work and deserves the encouragement and support of the suffering public—(*News Chronicle*).

Suicidal.

It is all very well to "keep the home fires burning"—in song it sounds nice and comforting—but if it impairs the health of the people, as it unquestionably does, it is suicidal—(*Rotherham Advertiser*).

"What clean cows."

It is a truism of travel that, however sunlit the day, the approach to any great city takes over its brightness a dark and smoky film. Thousands of homely firesides and hundreds of factory chimneys pour out their murk into the air, and over the town's expanse there hangs a pall. There is no need now for industry to turn a fair land into a blackened wilderness. Coal can be made a better, less grubby, servant of mankind.

There is a good deal of truth, as well as of pathos, in the story of the town child who on his first visit to the country went about crying delightedly: "What clean hills," "What a clean river," "What clean cows"—(*Evening News, London*).

The Inevitability of Gradualness.

Few reforms better exemplify the inevitability of gradualness than that of smoke abatement. Great credit is due to the National Smoke Abatement Society for its efforts to make known the evils of pollution and to develop a strong public opinion on the point. Thanks to those endeavours the menace, not only of industrial, but of domestic smoke is far better understood to-day than it used to be.

Factories may belch their vapours into the blue, but it is the spangles of smoke from innumerable private chimney pots that are mainly responsible for poisoning the urban air. When these are eliminated, and not before, will our cities be fit for an AI population to breathe in—(*Western Daily Press*).

The Supernal Sewer.

If we vaunt ourselves over our ancestors on the score of "enlightenment," it must be in a sense that is abstract, if not Pickwickian. We (of the cities) see through a smoke darkly and breathe an air that they would have abhorred as heartily as their chivalry condemned "villainous saltpetre."

The mischievous effects of smoke have been for a generation familiar to every schoolboy, and every schoolboy as he grew to manhood has had to suffer them with little mitigation. The subject does not appear to reach the cognisance of those who rule us; it would need a diligent search of "Hansard" to find anything about it. Yet it is a "national" question, if ever there was one; it has to be tackled on the broadest lines, if any headway is to be made at all. It makes one wonder how many of the hundreds of thousands of new houses that we are exhorting and organizing into existence will be fresh tributaries of that supernal sewer from which our nostrils have to extract the breath of life"—(*The Observer*).

Volunteers required.

Let us again salute our untiring friends of the National Smoke Abatement Society.

To-day, in saluting Smoke Abatement, we proffer a small suggestion. Persuasion and statistics and talk about atmospheric pollution, sulphuric acid, flue dust and gas, malignant congestion and tar deposits having quite obviously proved useless, why not a band of devoted Smoke

Abaters with blackened faces instead of black shirts—these to walk or stand about at selected points puffing smoke through portable funnels in a startling protest against smoke?

Advertisement pays. Argument rarely convinces. Smoke abatement awaits its heroes and martyrs—(*Daily Mirror*).

Disgusting Evil.

It was an old story, but one that needs reiteration, which was told at the Bristol Conference of the Smoke Abatement Society. The case against our present methods of burning raw coal had already been proved by irrefutable evidence; but the speeches at the conference did succeed in making one or two new points and in keeping the whole disgusting evil before the public eye—(*Manchester Guardian Weekly*).

Sanguine and Determined.

Since the burning of coal in London was prohibited exactly 662 years ago, and since from that day to this no one has paid the edict the smallest notice, the Smoke Abatement Society must be commended as a sanguine and determined body. Instead of denouncing the nuisance in bad language like John Evelyn, who pamphleteered against the "dismal and Hellish cloud of Sea-coal," the Society goes more cunningly to work by telling us of the shocking amount of money which is yearly wasted in smoke—(*The Morning Post*).

Plans for Chimneys, etc.

Under the Act new plants installed or alterations made to the old must be approved by the Commission. During the year the Commission examined and improved 81 plans of which 63 were made in the office of the Commission, covering nearly all types of industrial furnaces. Permission to construct was granted in each case.

Domestic smoke.

The most deadly of the smoke nuisances is the low-lying smoke discharging at ground level from over a quarter of a million domestic fireplaces which for several hours, particularly during the cold weather evenings, shrouds some suburban areas in an irritating and suffocating pall through which it is impossible to see even a few yards ahead. There being no chimneys, domestic smoke is discharged at ground level, when the aerial scavengers wind and rain fail, the poisonous smoke floats stationary near the ground in the vicinity of the spot where it is made. Where the domestic smoke is worst, the mortality from respiratory diseases is highest. The Act does not control domestic smoke. However, the Commission have undertaken to deal with this smoke as far as practicable by means of distributing leaflets containing illustrative instructions to the public and by co-operation rendered by the Ward Health Associations in the city. The alternative remedy is electricity, gas and smokeless fuel.

Complaints.

The Commission controls approximately an area of 80 square miles comprising the local limits of the Calcutta Corporation, Tollygunge Municipality, South Suburban Municipality, Garden Reach Municipality and Howrah Municipality. With the present inadequate staff

it is difficult to keep in touch with all cases of smoke nuisance. The public continue to show much confidence in the Commission and assist in the work by drawing attention to cases of smoke nuisances that Inspectors may not have observed. Eighty-six complaints were made against seventy-six in the last year. Whenever complaints are received immediate enquiries are made and relief given whenever possible. Many of the complaints were made against domestic smoke in respect of which no action can be taken under the Act; but every effort is made by instruction and advice to ameliorate conditions complained of.

Thirty-one statutory warnings were served upon the owners of factories for offensive smoke emission. With each intimations were also sent that, if effective remedial action to reduce emission were not taken, legal proceedings would be instituted.

Prosecutions.

Every care continues to be taken by the Commission before sanctioning a prosecution to see that it is necessary with most successful results.

The following prosecutions were instituted during the year under review:-

(1) Babu S. Bhattacharjee, Manager of Babu Basanta Kumar Roy's Rice Mill at Hon'ble Surendra Nath Roy Road, Shahpore, Calcutta, for emitting smoke in contravention of rule 23(*3*) under section 10 of the Bengal Smoke Nuisances Act III of 1905—Convicted for the first time and fined Rs. 25 (50 per cent. of the maximum prescribed).

(2) Mr. Weingartner, Manager of the Calcutta Ice Association, 3, Gas Street, Calcutta, for emitting smoke in contravention of rule 23(*3*) under section 10 of the Bengal Smoke Nuisances Act III of 1905—Convicted for the second time and fined Rs. 30 (30 per cent. of the maximum prescribed).

(3) Babu Lall Behari Basack, Manager of Messrs. S. N. (5) Babu Keron Chandra Mitter, Manager of the Kanai Lall Daga's Rice Mill at Carrapooker Road, Italghatta, Calcutta, for emitting smoke in contravention of rule 23(*3*) under section 10 of the Bengal Smoke Nuisances Act III of 1905—Convicted for the first time and fined Rs. 25 (50 per cent. of the maximum prescribed).

(6) Mr. L. M. Moora, Manager of the Shivajee Glass Works, Howrah, for emitting smoke in contravention of rule 23(*3*) under section 10 of the Bengal Smoke Nuisances Act III of 1905 and also for wrongful construction and use in contravention of section 8A of the said Act—Convicted for the second time and fined Rs. 40 (40 per cent. of the maximum prescribed).

(7) Babu Panna Lal Das, owner of the Sree Govinda Rice Mill at 6, Burrashibtolla Road, Shahpore, Calcutta, for emitting smoke in contravention of rule 23(*3*) under section 10 of the Bengal Smoke Nuisances Act III of 1905—Convicted for the first time and fined Rs. 25 (50 per cent. of the maximum prescribed).

(8) Babu L. M. Sarma, Manager of the Rameswar Tobacco Company, at 91-96, Grand Trunk Road, Howrah, for lower altitude in contravention of rule 23(*3*) under section 10 of the Bengal Smoke Nuisances Act III of 1905, and also for wrongful construction and use in contravention of section 8A(*2*) of the said Act—Convicted under section 8A for the first time and fined Rs. 100 (100 per cent. of the maximum prescribed).

(9) Mr. S. C. Ghose, Superintendent of the Tallah Pumping Station of the Calcutta Municipal Corporation, for emitting smoke in contravention of rule 23(*3*) under section 10 of the Bengal Smoke Nuisances Act III of 1905—Convicted for the fifth time and fined Rs. 150 (75 per cent. of the maximum prescribed).

(10) Babu Hari Pada Roy, Manager of Messrs. P. C. Sen & Bros.'s Rice Mill at 39, Alipore Road, Calcutta, for emitting smoke in contravention of rule 23(*3*) under section 10 of the Bengal Smoke Nuisances Act III of 1905—Convicted for the first time and fined Rs. 10 (20 per cent. of the maximum prescribed).

(11) Babu Radha Kissen Bhorilall, owner of the Rice Mill at 1/2, Chetla Road, Tollygunge, for emitting smoke in contravention of rule 23(*3*) under section 10 of the Bengal Smoke Nuisances Act III of 1905—Convicted for the first time and fined Rs. 10 (20 per cent. of the maximum prescribed).

(12) Babu Surendra Nath Shah, Manager of Messrs. Ramdeo Benarasi Lall's Rice Mill, at 2, Govindo Addy Road, Calcutta, for emitting smoke in contravention of rule 23(*3*) under section 10 of the Bengal Smoke Nuisances Act III of 1905—Convicted for the first time and fined Rs. 10 (50 per cent. of the maximum prescribed).

In the last three cases, the fines inflicted are less than the inspection fees which would have been payable. The infliction of such inadequate sentences not only makes a breach of the Act profitable, but also tends to encourage certain owners, to commit such a breach.

Publicity.

The Commission was again represented at the Calcutta Health Welfare Week. Exhibits showed the evil effects of smoke nuisance and air pollution on the local respiratory mortality, the poisoning of food supplies and the effects on trees, buildings and distant localities. The Calcutta Electric Supply Corporation and the Oriental Gas Company greatly assisted this section in displaying smokeless gas and electrical appliances for cooking and other domestic purposes, as a permanent solution of the evils of smoke. The public showed great interest in this section.

Permanent remedies.

Electricity, gas, gas coke, oil and smokeless fuels (low temperature carbonisation).

In factories (apart from the 100 rice mills using the waste product, husk) much raw coal is used. The annual reduction shown in Appendix I indicates that it is possible to reduce smoke emission to a negligible amount, and in many cases it will prove economical to use a smokeless medium in place of raw coal.

The smoke abatement campaign has been materially assisted by the activities of the Calcutta Electric Supply Corporation who have during the past year further increased the number of their consumers, particularly amongst industrial works.

The number of domestic consumers of electricity has increased by 5,427 whilst an additional 499 heating and cooking circuits have been connected to the company's mains.

The total power of new electric motors connected during the past year in industrial works amounts to no less than 20,000 horse-power, and the greater proportion of this vast increase is represented by the conversion of existing steam engines to electric drives with a resultant closing down of boilers in existence for many years. This results in a corresponding diminution of free smoke emitted in the Calcutta area.

The Oriental Gas Company state that during the year ending 30th June 1935 there was distinct evidence of a turn towards the use of gas for industrial purposes in various ways.

At the same time, many new residential buildings were fitted with complete installations for cooking and water heating purposes, whilst for the latter purpose the gas geyser demand had continued to be a marked feature of house and flat seekers. Property owners when renovating their premises frequently install modern gas appliances.

During the year the number of appliances showed an increase of 700 for cooking, water-heating, steam raising and for a large variety of industrial purposes.

General control by the Commission.

During the year under review the Commission held 11 meetings out of which one was special. The Commission also kept in touch with various smoke departments, fuel, engineering and research institutes of Europe and America.

The average emission of smoke from each factory chimney was the equivalent of ·07 minutes of dense black smoke per hour. In 1906 when the work of the Commission commenced it stood at 13·1 minutes per hour.

Detecting offensive chimneys.

Smoke observations of big factories were generally made by the Inspectors from the Central Smoke Observatory which is fitted with a telephone so that owners may be informed on the telephone at the actual time of smoke emission. Observations of locomotives, steamers, launches and minor industries are made locally.

In 1926 the Commission recommended to Government that Smoke Observers should be appointed to relieve the Inspectors for the duty of inspection, etc., of engineering plants. Administrative approval was obtained in 1927 to this recommendation, but financial stringency has prevented this scheme being carried into effect.

During the year action was taken as under:—

Nuisances reported for:—

Departmental action—1484 offences.

Telephone warnings—963 offences.

Inspections and tests—4,820.

Statutory warnings—31.

Prosecutions—12.

The maximum fine imposed for offences under the Act was Rs. 150 and the minimum Rs. 10.

It is recognised that the smoke from locomotives, road rollers and steamships is particularly offensive, because of low altitude at which it escapes, but improvement in this is being experienced largely due to assistance of owners, who punish careless attendants departmentally on reports from the Inspectors of offences observed. This procedure has been so successful that no prosecutions were necessary regarding such furnaces, though excessive smoke from 236 locomotives, 1 road roller and 241 steam-launches and steamships had to be reported during the year.

Conclusion.

The Commission records its grateful thanks to smoke departments, fuel and engineering research institutions and the technical and local press for assistance freely rendered. Thanks are also due to local owners, managers and engineers, whose co-operation and valuable assistance have greatly helped the Commission and to the technical staff for their energy and loyalty in carrying out the policy of the Commission.

R. GRANT,
Chief Inspector and Secretary.

President.

CALCUTTA, THE 11TH AUGUST 1936.

RESOLUTION—No. 6207M.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

The attention of Government has been drawn to the unsatisfactory state of affairs that has been prevailing for sometime past in the administration of the Rajpur Municipality, in the district of the 24-Parganas. It appears that there are two rival parties among the Municipal Commissioners and the activities of party factions have been so injurious to municipal affairs that even the normal administration of the municipality is not being allowed to be carried on properly. The Chairman appears to be practically an absentee. The party in opposition succeeded in securing a majority, with the result that a majority of the Commissioners refused to pass the budget estimates for 1936-37 embodying the ordinary grants and reduced the grants to Re. 1 under certain essential heads, such as, education, dispensary, etc., with a view to bringing about a deadlock. Attempts to pass the budget after reinserting the ordinary grants proved fruitless. Repeated attempts were made by the Subdivisional Officer and the District Magistrate to bring about an amicable settlement between the parties, but these proved unsuccessful. The Chairman, whose party is in a minority, would not resign so as to remove the deadlock. On the other hand, the opposite party, although in a majority, could not secure the two-thirds majority necessary for his removal. Nor would the parties agree to come to a mutual understanding in the interest of the rate-payers whom it is their duty to serve.

2. The sweepers' service has been suspended by reason, among others, of the necessary grants for the purpose not being passed and conservancy arrangements have consequently broken down. In fact, there has been a complete deadlock in the municipal administration, to the great suffering of the residents of the municipality.

3. The conduct of both the parties appears to Government to have been in utter disregard of their statutory duties and the interest of the rate-payers. It seems clear that while the Chairman is clinging to the chair although reduced to a state of impotence, the opposite party is determined to make the normal administration of the municipality impossible. In the circumstances Government are satisfied that the present body of Municipal Commissioners have persistently made default in the performance of the duties imposed on them by the Bengal Municipal Act, 1932, and have shown their incompetence to perform these duties. In exercise of the powers conferred on them by section 552 of the Bengal Municipal Act, 1932, the Government of Bengal (Ministry of Local Self-Government) accordingly direct that a fresh general election shall be held, and that fresh appointments shall be immediately made of persons to be Commissioners of the Rajpur Municipality in the district of the 24-Parganas.

4. Ordered that this resolution be published in the *Calcutta Gazette*.

In addition to the details required on the reverse, clear information should be given below under the following heads:—

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the municipality has taken, or has agreed to take, in order to make good the deficiency.

(*a*) The ordinary surplus as arrived at on the basis of the last three years' receipts and expenditure is quite sufficient to pay annual instalments towards repayment of the loan. Apart from this the quinquennial revision of assessment which had effect from 1st April 1935 has increased the demand on account of the three rates by about Rs. 4,000 and a professional tax under section 123(*1*)(*f*) was imposed only about a couple of years hence and the percentage of conservancy rate was increased from 3¾ to 4. The proceeds from these sources are now spent on less important improvements and would be available for payment of loan repayment instalment. There is also saving of about Rs. 1,700 that would be caused on conservancy head by introduction of the Sewerage Scheme. These taken together would be quite enough to meet any deficit in surplus.

(*b*) The reserve of taxation or other possible means of increase in the revenues of the municipality. The rates at which each of the taxes mentioned in column 12 on the reverse are levied, other than tax on persons, should be stated here.

(*b*) The rates at which the taxes mentioned in column 12 on the reverse are levied are as under:—

(*i*) Rate on holdings at 7½ per cent. on the annual value of holdings.

(*ii*) Water-rate at 7 per cent. on the annual value of holdings to which water connections are given and at 6 per cent. in cases of all other holdings which or any part of which are within a radius of 440 yards from the nearest street tank.

(*iii*) Conservancy rate at 4 per cent. on the annual value of holdings.

(*iv*) Taxes on carriages and animals at the following rates:—

Description.	Tax per half-year. Rs.	A.
(*a*) On every jin rickshaw ..	2	0
(*b*) On every 4-wheeled carriage drawn by two horses ..	4	8
(*c*) On every 4-wheeled carriage drawn by one horse or a pair of ponies	3	0
(*d*) On every 2-wheeled carriage ..	2	8
(*e*) On every horse	3	0
(*f*) On every pony under thirteen hands and on every mule or donkey	0	12
(*g*) On every elephant	6	0
(*h*) On every camel	2	0
(*i*) On every 4-wheeled carriage drawn by one pony under thirteen hands	2	0

(*v*) Tax on professions and trades (dangerous and offensive trades):—

	Rs.
Bone depot	25
Hide depot	25
Lime kiln	10
Wood depot	25
Brick kiln	40

(*vi*) Tax on professions, etc., under section 123(*1*) (*f*) of the Act at half the rates specified in Schedule IV of the Bengal Municipal Act, 1932.

There is still room for increasing the percentage of the holding, water and conservency rates by respectively 2½ per cent., 1½ per cent. and 3 per cent. Moreover, this Board has since all the streets and lanes of the town electrically lighted without imposing lighting rate and they can if necessity is felt impose a lighting rate too.

(*c*) A statement of all outstanding loans specifying in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved, and the amount still payable.

(*c*) Only a sum of Rs. 1,08,397-13 is outstanding to this date against a loan of Rs. 1,20,000 taken from Government (*vide* Government Order No. 3074P.H., dated the 25th November 1930) at an interest of Rs. 6½ per cent. for the Asansol Water Supply Scheme. The loan is repayable in twenty-five annual instalments of Rs. 9,837-12 payable on the 1st December every year. Five instalments have already been paid on due dates. This loan charge is met from Water-works Fund and no other loans are outstanding.

(*d*) Any explanations in regard to receipts and expenditure to show the true financial position of the municipality when such position is otherwise than the ordinary surplus would indicate.

32. The aerodrome authority applying sanitary measures shall, whenever requested, furnish free of charge to the Commander of the aircraft, or any other interested person, a certificate specifying the nature of the measures, the methods employed, the parts of the aircraft treated, and the reason why the measures have been applied.

168. Rabindra Nath Tagore.—চতুরঙ্গ—

[Chaturanga. Qudripartite. A story devided, as the title signifies, into four parts marking different stages in the development of the plot, describing the successive changes in the religious beliefs of an educated youth who turns an uncompromising atheist and subsequently a staunch and enthusiastic Vaishnava and who finding at last that Vaishnavite observances have not taken him any nearer his spiritual goal takes to meditation and religious austerities for the realisation of God—nothing short of which would satisfy his spiritual hunger. The story contains an episode of love (*viz.*, that of an intimate friend of the above youth for a girl widow) ending in marriage, the death of the girl happening soon after, which, however, cuts short the expected conjugal happiness of the couple.] Pages 1+144+10. Rampur Boalia, the 2nd August 1936.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 4th August 1936.

First Forecast of the Sugarcane Crop of Bengal, 1936-37.

(*Note.*—On an average of the five years ending 1934-35, the area under sugarcane in Bengal has represented some 7·2 per cent. of the total area under sugarcane in British India.)

Character of the season.—At the beginning of the season the weather was generally favourable for planting in East and North Bengal while insufficient rainfall interfered with the progress of the operation in some West Bengal districts. Subsequent conditions were generally helpful for growth. The outlook, so far, is reported to be satisfactory, on the whole.

Area planted.—The total area planted with sugarcane for the province is reported to be 353,200 acres this year as against 324,700 and 325,400 acres reported respectively in the corresponding and final forecasts of last year.

K. McLEAN,

Director of Agriculture, Bengal.
